

The image features a collection of precision-machined metal parts. In the foreground, a polished stainless steel shaft with several stepped diameters is positioned diagonally. Beside it lies a shorter, threaded brass component with a hexagonal base. The background is filled with a soft-focus array of various gears and mechanical parts, creating a sense of industrial complexity and precision.

ROIFAST

PRECISION TURNED COMPONENTS

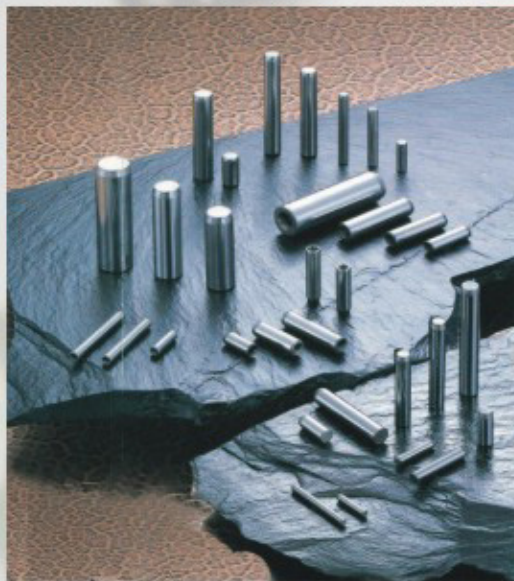

An ISO 9001:2000 company

Making Things Happen

The essence of performance

Kapil Enterprises are specialized manufacturers of **precision turned components, fasteners, turned parts & connectors** for electronic, automation, semiconductor, automobile, automotive racing, and IT industry. With high powered synthesis of experience & innovation we hold the leading edge in manufacturing excellence at state of the art production facilities at our works in export zone in HSIDC Kundli in Haryana (India).

We offer cost effective solutions to our customers in their field. Our business philosophy is based upon providing superior products and services, any time and every time.

Specialty turned components.

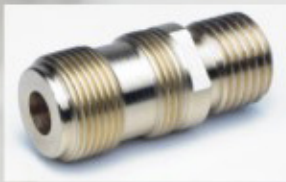

At Kapil Enterprises we specialize in components which are made on NC & CNC machines and are made as per customer's drawings and specifications

Quality Control

We have a long standing tradition of providing uncompromised quality machined and turned components. We relentlessly conduct series of quality checks using Profile testing and CMM to ascertain the quality requirements.

The difference

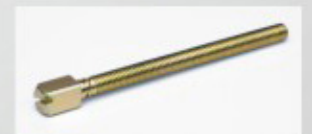

Precision turned components for automobile, aerospace, connector, machine guard, framing and engineering industry

Many months of applied research has enabled us to provide the right quality product to the highly specialized requirements of the Indian, Europe and USA based companies. With this we have also achieved the target set out by our organization three years ago. With the help of latest Automats, NC, CNC, Milling, Grinding, Forging and Threading machines we are able to manufacture near accurate connectors under 10 Microns.

Technical Support /Services

At Kapil Enterprises we have specialized people who can assist you in the selection of the right material based on your application and requirement. We can also tailor make components specially as per your requirement with the help of our people, machines and our experience.
